

State of New Hampshire Outdoor Fixed COVID-19 Testing Sites Inclement Weather Closure Plan

February 2022

New Hampshire Department of Health and Human Services

**State of New Hampshire Outdoor Fixed COVID-19 Testing Sites
Inclement Weather Closure Plan**

February 2022

The State of New Hampshire is committed to providing free and convenient access to COVID-19 testing throughout the state. As such, the State has opened 7 outdoor fixed testing sites located statewide.

In an effort to preserve this access and keep residents and site staff safe during periods of inclement weather, the State has implemented a weather-related closure plan for each State-run outdoor testing site. The State is committed to ensuring access to testing and will attempt to limit disruptions in our residents' lives by keeping the outdoor fixed testing sites open as much as possible.

Under the State's inclement weather plan, the 7 State-run outdoor testing sites will align with local school systems Monday through Friday. If the municipal school district where a testing site is located cancels school due to inclement weather, the testing site in that municipality will be closed that day. When schools in the municipality are open, the State-run outdoor testing sites will also be operational. Decisions made by school systems in proximity to the municipality where the outdoor testing site is located will have no bearing on the operation of the testing site.

On weekends, the State of NH (including the Departments of Safety and Health and Human Services) will continue to partner with the National Weather Service and the outdoor testing site vendor to make the safest decisions during severe weather conditions such as a Nor'easter or sub-zero wind-chill temperatures.

Details:

- Monday – Friday: Each local fixed testing site will only close if the local school system is closed due to inclement weather.
- Saturday and Sunday: Each local fixed testing site will remain open unless a significant weather event occurs that requires closures as recommended by the National Weather Service and Department of Safety.

Testing Fixed Site Locations:

Belmont Testing Site

96 Daniel Webster Highway
Belmont, NH 03220

Claremont Testing Site

River Valley Community College
1 College Place
Claremont, NH 03743

Keene Testing Site

27 Key Road
Keene, NH 03431

Lincoln Testing Site

Whale's Tale Water Park
481 Daniel Webster Highway
Lincoln, NH 03251

Manchester Testing Site

JFK Colosseum
303 Beech Street
Manchester, NH 03103

Nashua Testing Site

25 Crown Street
Nashua, NH 03060

Newington Testing Site

Fox Run Mall
50 Fox Run Road
Newington, NH 03801
